Callaghan last spring running in the field. When he was born he had to have surgery on both front legs. He was taken from his mother at only a few days old and was a bottle baby. Callaghan came to live at OSER when he was four months old. His issues cause him to not be able to be ridden although he lives a great life with his two favorite Thoroughbred buddies.

There is nothing like starting the day with a good stretch and roll.

Most of the horses at Osborne Stables Equine Rescue would not have had much of a chance of being happy healthy horse. It takes more than love. The ongoing care and medical expenses are vast. Thank you for helping us in our fundraising efforts. OSER strives to provide the best care for the horses and equine education programs for our community.

1st Annual Summer Fundraiser

Osborne Stables Equine Rescue, Inc. is holding its 1st Annual BBQ/Auction to Benefit Abused and Abandoned Horses. At Texas Pride BBQ - June 25th
